### AGRICULTURAL ITEMS. DATEY PRODUCTS.

At the recent annual meeting of the International Dairy Fair association one speaker chained that the dairy interest of the country exceeds the wheat interest in money value. The corn production of 1879 was worth \$590,000,000, but the extension of the soil necessary to its production represented not less than \$100,000,000, or 20 per cent of the seling value. Wheat and corn depleted the soil of its natural wealth, and applying the production of the seling value. of its natural wealth, and, notwithstanding of its historial wealth, and hotevitalstanding the vastly increased aeroage devoted to these enough last year there was a decrease of \$26,-000,000 in the total market sales. On the oth-er hand, dairy products not only made up for, the impoverishment of the wall by norn in 1879, but added \$100,000,000 to its vaine.

A good many people wonder how it is that they see atievly by-paper in furg store windows covered to completely with dead flies that they see atievly by-paper in furg store windows covered to completely with dead flies that them does not seem to be room for an orther fly, and if they buy the paper and take it home where flies are as thick as three in a bod, they can't get a dozen flow on the sheet of paper in a week. The fact is that the druggists (and we have this from one of them in person) employ boys to catch flies and stick them on the paper. Some boys makes as highes a dollar and a half a day exterbing flies for druggists, and in come localities these boys have almost taken the last fly in the houses. Milboutkee. Sun.

Sonatod Warner Miller has been displaying so much garrulity at hisentrance into his high coffice as to already his sole public act heretofore has been an apitation for the inertians of the duty on wood pulp. This, therefore, was rather a delicate shipler for him to handle, but at the annual meeting of the Paper Makura Association be grappled with it beldly and imprediently, and at the same time took the opportunity of declaring timed in favor of substilizing steamship lines to entry his paper to Brazil and elevence. Mr. Miller has fatteened on prolactical so long that he seems to have least all sense at modesty. It is not month for bim that the consumers are forced to pay a famey price for his paper, but he would further that them to outsideshisteemship lines to extend his business shound. We have no doubt that there are plenty of protected manufacturers who contents in the content of protected manufacturers who contents and the consumer and force in the least of the paper, he have a depart of protected manufacturers who contents and the consumer and force in the large and further and the consumer is that he has and thing which he will probably have cause to regret consumer.
